Mèreadesso Lip Treats

By: The Kit
Thursday, November 17th, 2011

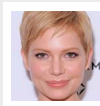

We know you've heard it a hundred times but it's true: winter = dry skin—especially lips. The combination of primrose, grape seed, coconut and sunflower oils in Mèreadesso's Lip Treats will keep your pout from flaking and peeling when the furnace is at full blast. Not only is it moisturizing but its smooth texture makes it the perfect pre-lipstick primer, promising to double the wear time of your lip colour.

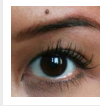

Mèreadesso Lip Treats are sold in pairs in a cute reusable pouch.
